RAISE \$5,000
BY EVENT DAY

MEDAL FOR EACH
TEAM MEMBER

THANKS TO FUNDRAISING — a mother and son are safer.

Imagine learning that you've passed a deadly heart defect on to your child. That's what April Kawaguchi found out when DNA testing revealed that her son Andrew had inherited her heart condition, which can cause sudden cardiac arrest and death.

Family history can double your risk of heart disease and stroke. That's why the Foundation funds the best medical minds to stay on the cutting edge of genetic research. When you fundraise for the Heart&Stroke Big Bike, you're supporting this research, which will create a safer future for all families.

Doctors predict the remaining **80%** of the genetic mystery involved in heart disease and stroke could be discovered in the next 5 years. But only if research continues. **Help make that happen.**

The Heart and Stroke Foundation is a member of Imagine Canada. As a participant it is your responsibility to follow Imagine Canada's ethical guidelines as outlined at heartandstroke.ca

We are committed to protecting the privacy of your personal information. We may maintain a record of your interaction for donor related, promotion and tax receipting purposes, where required. Occasionally, we may contact you with mission-related communications. If you wish no further contact please call the Chief Privacy Officer at 1-888-473-4636.
